

a) Graph of training loss and test/validation loss over epochs

b) For my neural network on Fashion MNIST, I obtained the lowest validation loss to be at epoch 11

current epoch: 11

Training set: Average loss: 0.3094

Test set class-wise accuracy: [83.6, 96.1, 80.7, 90.5, 80.1, 96.7, 59.3, 92.8, 97.7, 96.4]

Test set: Average loss: 0.3520, Accuracy: 8739/10000 (87%)

c) The ranking of class wise accuracy (from most-accurate to least-accurate) is as below:

8,5,9,1,7,3,0,2,4,6
